GstarCAD **2020**
The most desirable alternative CAD

What is GstarCAD?

GstarCAD is well-known alternative CAD software of high compatibility with ACAD. With nearly 30 years of continuous improvement and lean innovation, today GstarCAD is far ahead in performance, stability and other key indicators and becomes leading CAD software in the world.

GstarCAD 2020
The most desirable alternative CAD

GstarCAD 2020 comes out with comprehensively 3D optimization, newer practical features and important enhancements, making your design smoother and efficient. With the best-ever performance, seamless compatibility and the full functionalities, GstarCAD 2020 becomes the most desirable alternative CAD.

Perfect Compatiblity

If you were an ACAD user, you will be impressed by the high level of compatibility. You will be soon creating and handling drawings with exactly original ways. Just 15 minutes, you will find you are familiar with GstarCAD.

GstarCAD 2020

1	Install and activate GstarCAD	5min
2	Import customization settings	5min
	CUIs, Plotters, Shortcuts, Blocks, Templates, Lisp Programs...	
3	Edit or create your drawings and enjoy	5min

Flexible Licensing

GstarCAD licensing policy is flexible and simple. We provide perpetual license and subscription. You are free to choose the license mode and you decide when to upgrade.

	Stand-alone	Stand-alone	Network	Network
	License-key Serial number	USB-key Dongle	License-key Serial number	USB-key Dongle
Perpetual license	√	√	√	√
Rental license	√	×	√	×
License borrowing	×	×	√	×
Connection to license server	×	×	√	√

GstarCAD 2020
### Advantages

Innovative Tools

GstarCAD provide over 100 unique and innovation tools like "Collaboration", "Area Table", "Auto Layer", "Viewport to Layout", "AutoXlstable". They are adopted to significantly speed up your drafting speed.

GstarCAD Tools
Magnifier Line2pl **Block Break**
Align Tool Arrange frame
Arrange Tool Pline Boolean
MEASUREGEOM **Symetric Draw**
Outline Objects Attribute Increment
Barcode & QR Code
GstarCAD Collaboration
Shortcut Customization(CUSTACC) Invert Fillet
Graphic Compare **Batch Print**
Table Tools Drawing Lock
AutoXLSTable

Excellent Performance

Higher performance plays an important role in GstarCAD. The performance of common-use operations like "OPEN", "QSAVE", "PLOT", "CLIP", "TRIM", "PASTE", "MOVE", "DYNAMIC SELECTION", and more commands are significantly faster than other CAD software.
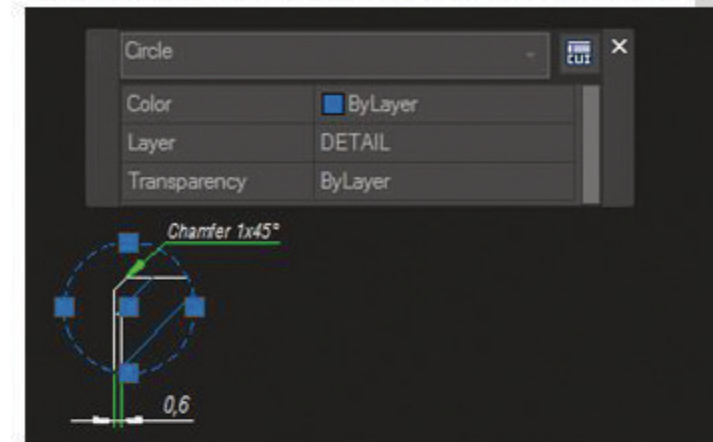

Common Operation

82%	68%	69%
44%		
	35%	92%
		60% 63%

Startup   Open drawing   Save   Print

Drawing Size: 47 MB
Testing on Windows 10, 8 GB RAM

New Interface

With the new attractive color theme and icon designs, GstarCAD 2020 offers you a concise and familiar interface which you can easily to customize.
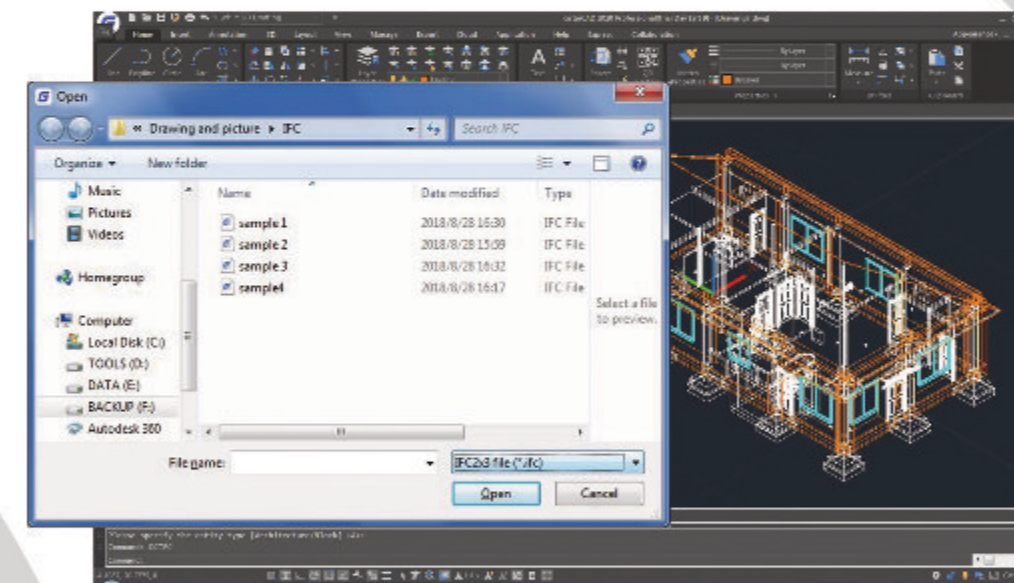

Quick Properties

Quick properties is a set of objects properties displayed through the properties palette. GstarCAD 2020 is able to customize your own quick properties to meet your needs.
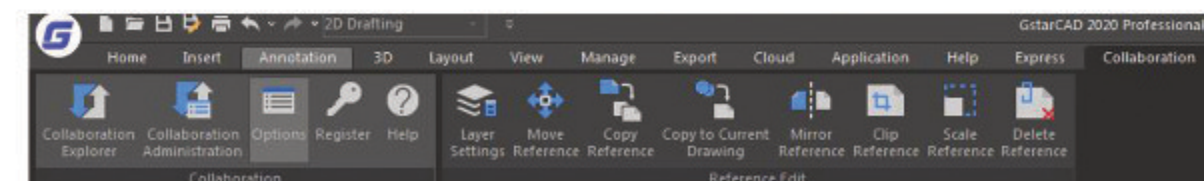

.IFC File Format Import and Export

Since IFC format supported in GstarCAD 2020, you can import and export standard IFC file format as well as view 3D models by category and operate in GstarCAD conveniently.

Collaboration Features

More new features added in GstarCAD Collaboration, helps CAD designers work together among a mutual drawing reference environment at the same time.

What's New
New Features in GstarCAD 2020

03

PDF Import and Export

Import TrueType text, the geometry, and raster images from a PDF file or underlay into a current drawing as GstarCAD objects and export drawings to PDF file.
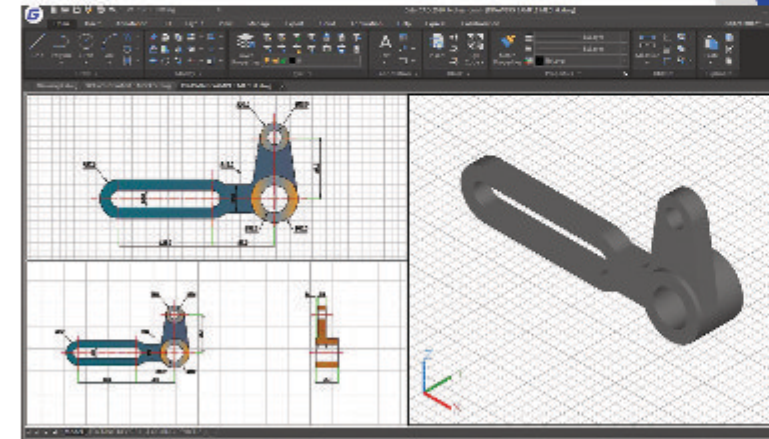

3D Improvement

GstarCAD 2020 brings you an amazing 3D with the comprehensively reconsition for 3D system, improved 3D performance, 3D functionalities , display effect and accuracy.

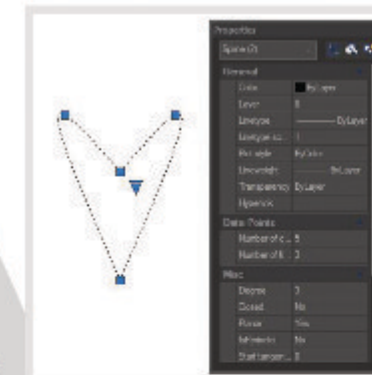

Display Improvement for 4K Monitor

Support for high resolution monitors continues to be improved in GstarCAD 2020 to ensure the best possible viewing experience even on 4K displays and higher. Commonly used user interface elements, such as the Start tab, Command line, palettes, dialog boxes, toolbars and grips are appropriately scaled and displayed as per the Windows setting.

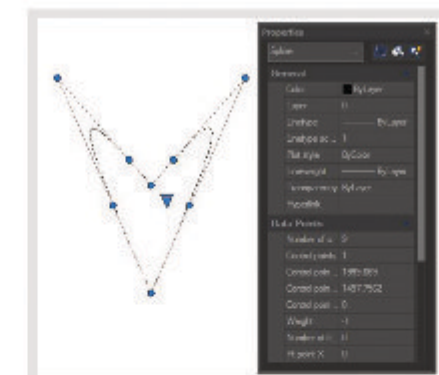

JOIN Command Improvement

More objects supported by JOIN command in GstarCAD 2020. Now JOIN command is not only supports line and pline, but also supports arc, spline.

One spline after Join

Two spline objects

GRX Interface Improvement

GstarCAD offers friendly secondary development interface, untile now GstarCAD has been cooperating with hundreds of developers worldwide to provide industrial solutions for customers.
For more information about secondary development solutions of GstarCAD, Please refer to the link:
